PROFESSIONAL PROFILE

Fullstack Developer with 3+ years of experience building robust, scalable, and high-performance web solutions. Specialized in Front-End with **Next.js**, **React**, and **Angular**, and back-end integration with **Node.js**, **Laravel**, and **.NET**. Proven track record on large-scale projects for international brands, **Pixel Perfect** implementation from Figma, REST/SOAP API integrations, headless CMS, and cloud deployments (AWS EC2/Lambda). Passionate about web performance (Core Web Vitals) and about leveraging **AI tools** in the development workflow to speed up delivery and raise code quality.

PROFESSIONAL EXPERIENCE

Front-End Developer · Havas Colombia

December 2025 – May 2026

Bogotá D.C.

- Development and maintenance of **co.thebar.com**, a multi-brand platform integrating 5 premium spirits brands (*Smirnoff*, *Don Julio*, *Old Parr*, *Baileys*, and *Buchanan's*) under a single **Next.js (App Router) + TypeScript** architecture.
- Built the **Buchanan's website with .NET and Umbraco CMS**, developing templates, document types, and components so the marketing team could manage content autonomously.
- Built reusable, **Pixel Perfect** components from Figma prototypes, ensuring full visual fidelity and brand consistency across every component.
- Optimized performance with the help of **AI tools**, reducing development time and improving the **Core Web Vitals** (LCP, CLS, and TBT) of the landing pages.
- Managed brand-specific conditional logic: age verification, regional personalization, and dynamic routing, plus integration with third-party APIs and headless CMS.
- Coordinated with design and marketing teams to deliver high-impact campaign and landing pages.

Fullstack Software Engineer · Espacio RH LATAM

October 2022 – Present

Bogotá D.C.

- Developed and maintained a live enterprise HR platform with **Laravel (back-end) and Angular (front-end)**.
- Implemented critical modules: **Electronic Payroll (DIAN compliance)**, Absence Management with automatic validation, and Labor Certifications with automated PDF generation and electronic signature.
- Designed and built the corporate landing page in **Next.js**, focused on performance, SEO, and conversion.
- Accelerated development using **AI tools** (code generation/refactoring and testing), reducing delivery time and improving the **Core Web Vitals** of the Angular front-end.
- Deployed and administered on **AWS EC2 (Linux)** with MySQL and SQL Server databases; integrations via REST and SOAP APIs.
- Provided technical support for a Java-based payroll software deployed on Windows Server.

Development Engineer · DataCRM

December 2024 – October 2025

Bogotá D.C.

- Developed new features for the internal CRM with **Vue.js**, **Laravel**, and **Express.js**.
- Built advanced integrations with **WhatsApp Business API (Baileys)** and **RD Station**, automating commercial processes with a queue architecture on AWS Lambda.

- Optimized development with the help of **AI tools**, reducing implementation time and improving the **Core Web Vitals** of the interfaces.
- Refactored modules and optimized MySQL queries; designed RESTful endpoints and secure JWT authentication.
- Migrated a legacy CRM from **PowerBuilder** to a **modern Node.js + Angular stack**.

June 2021 – August 2022

Remote

Freelance Web Developer · **Dakiti Buzos & Camele Tienda**

- Built custom e-commerce solutions with **Laravel, PHP, and jQuery**, with secure payment flows and interactive interfaces.
- Developed a commercial website in **Next.js**, optimizing usability, performance, and SEO with the help of AI tools.

TECHNICAL SKILLS · EDUCATION

Frontend Next.js · React · Angular · Vue.js · TypeScript · JavaScript · HTML5/CSS3 · Figma → Pixel Perfect

Backend .NET · Node.js · Express.js · Laravel · PHP · NestJS · JWT · REST/SOAP APIs

CMS Umbraco · WordPress · Headless CMS

Cloud & DevOps AWS EC2 · AWS Lambda · Docker · CI/CD · Git · Linux / Windows Server

Databases MySQL · SQL Server · MongoDB · NoSQL

AI & Productivity AI coding assistants · Core Web Vitals optimization · Postman · JIRA

B.Sc. in Computer Engineering

Universidad Militar Nueva Granada

Graduate · Bogotá D.C. · 2019 – 2025

CERTIFICATIONS

- Master in React (Hooks, MERN, Node.js, JWT)
- Master in PHP, Laravel, Symfony & WordPress
